house, loan, ring, estate, report

Mr Fenstermacher,

If you got any emails from me this week asking for gift cards or money, it was not me. My email was hacked and everyone in my files got such emails.

I recently found that you joined another law firm.

I still have not heard from you for past about 7 months on any of the issues I have told you about that affect my inheritance in my many, many emails to you. You have refused to sell me the house as you said you would back in fall of 2024. No reason given by you. You have continued to force me to live in my car. You are wasting my inheritance by paying for the various expenses and taxes of the house without me getting any benefit of it. You have refused to answer my questions about the Will and trust

You have also refused to provide documents proving the \$100,000 loan to my sister, by my parents, was ever forgiven by my Mother as you have claimed. The 50% of that remaining loan of \$75,000 is my inheritance. You have refused to let me get a independent estimate on Mother's diamond engagement ring that you allowed my sister to have the funeral director take off of her dead Mother's finger, you allowed my sister to put Mother into a much cheaper casket than my Mother had picked out for herself years ago and my sister had Mother buried in a pajama top and sweatpants. She refused to let me put a note of love into Mother's casket and she refused to not allow me to take a picture of Mother for memory.

You have refused to accept your gross corruption as guardian of estate to Mother for the last 2 years of Mother's life. You admitted in court, by my questioning, you had not seen or talked to Mother for 4 years before her being killed by the guardian mafia. But, you were making decisions for her when Mother had the right to be asked and her wants and wishes granted, even being declared "incapacitated.". You allowed the massive waste of money as guardian of estate to Mother for 2 years by having Mother kept in her pig pen instead of Mother living at home at the court accepted cost of only \$16,500 a year compared to about \$90,000 a year she was paying at the pig pen. You refused to look into why Mother was even kidnapped from her house and later forced to exist in the pig pen in solitary confinement, in a locked in section, in a sensory deprived environment, not allowed into society and was forced to be kept with people with behavior and mental problems. Mother NEVER

had any such problems and NO one, including judges, guardians or sister ever claimed Mother had those problems. The 50% of that money allowed to be wasted by you is my inheritance.

Plus, the massive lawyer fees that were the responsibility of the guardians as part of them doing a business and also the "care manager" klock had no purpose to be hired and paid at all. As you recall in court, by my questioning, you stated you thought your only job was to sign checks and not care about waste and fraud. That waste and fraud involve Mother losing massive amounts of money and me losing massive amounts of money in my inheritance.

You have refused to tell me when your final report will be released and another matter involving the estate by a relative.

You are the Executor of the Will, you are required to carry out my Mother's wishes as she wanted and protect my inheritance. You have refused to do so.

house, loan, ring, report, estate

Mr. Fenstermacher,

I just checked with the Chester County Register of wills for the inheritance tax return you were supposed to have filed within 9 months of my Mother's killing.

They said no return was filed by you. As you recall, you failed to pay a tax due in 2023 and the tax bill was turned over to a law firm to be paid and you were late again to pay another tax in 2024 and the house insurance.

You have refused to answer my emails for 7 months and ignored very important matters pertaining to Mother's estate and to me, including selling me the house as you had agreed to do in about September 2024. No reason given by you. You are wasting my money by paying school and property taxes, HOA and house insurance by not selling me the house my Mother wanted me to have in writing. I am not getting any benefit of that wasted money because of your childish behavior. As you recall, you as guardian of estate and Jaskowiak as Mother's lawyer had me evicted from Mother's house without asking her. Since then I have been forced to live in my car. Your obligations, as her lawyers and you as her guardian of estate, were to your client, Mother, even if she was claimed to be an incapacitated person decided by a quack psychologist who admitted in court, by my questioning, that his so-called "tests" and "evaluation" had NO independent proof of accuracy, plus my sister, in her made up petition for guardianship, never provided any of the professionals Mother dealt with every year to say Mother ever needed any guardian. You asked my sister first if she wanted the house during the summer of 2024 and she declined because she had a house. You have refused to prove, with real documents, my Mother ever forgave the

massive loan to my sister. You have refused to let me get my independent estimate of Mother's diamond engagement ring she wore for 80 years that your picked "expert" claimed it was only worth \$350. As you recall, my sister had the funeral director take it off of my dead Mother's finger before she was buried. First, you claimed it was part of the estate, but several months later you claimed you did not know about it until after I had just told you in a later email. As you also recall, my sister put Mother in a much cheaper casket just before the burial, instead of the much more expensive casket Mother picked out for herself many years before.

As you recall, during a hearing in early 2024, by my questioning, you claimed you thought your only job as guardian of the estate was to just to sign checks and not be concerned about waste and fraud in those checks. You also stated in that same hearing, you had not seen or talked to Mother for 4 years, including your almost 2 years as her guardian of estate. But, you were giving away her money to strangers who were not to be paid by her, not asking her what she wanted, including where to live and also totally ignoring the federal and state laws regarding those claimed to be incapacitated, including the various rules for those people on their care and their wants.

Will you remove yourself now from being Executor of Mother's estate and my Trustee? You have refused to do your legal obligations in those positions, thus causing me undue harm financially and emotionally.

loan, ring, house, estate, tax report

Mr. Fenstermacher,

I still have not heard from you on any answers of my questions for the past 7 months. They include why you suddenly decided not to sell me Mother's house as you had agreed to do in late summer of 2024, at the agreed upon price, but you had asked jsh if she wanted the house and she declined. You have been wasting my inheritance on the property tax, sewer tax, school taxes, HOA, utilities, etc, but I have not received any benefit of that money wasted by you because the house still is unoccupied since August 25 2023 when you and jaskowiak had me evicted from the house. But, neither of you had ever asked Mother what she wanted and she had that right.

As per your email pertaining to the tax report on april 7 2024, as I have told you several times before, the only people to be paid were the ones appointed: guardians of person and estate and jaskowiak. No one and nothing else, which would include guardian lawyers, a "care manager" klock, travel expenses, any meals and especially the guardian of person's (pam blumer) so called "monitors" blumer's friends, who were told to sit with Mother and me during our visits and were told to write lies in their reports to restrict and deny visits to me with Mother. Those "monitors" were paid with eith my money or Mother's. As you also know, just after being hired, pam blumer hired her husband, bill, as her lawyer and then he hired other lawyers from his law firm. Bill blumer is good friends with jaskowiak, along with many of the other people in this guardian mafia. As you know, those lawyers refused to let me protect myself with a cell phone to record my visits to prove I never did anything wrong and refused to prove any of their claims in court.

In addition, as you recall, you stated in court by my questioning, you had not seen or talked to Mother for 4 years, including basically the 2 years you were the guardian of her estate. You never became a certified guardian so you would know the federal and state laws of guardianship and learn the rights Mother had as being a so-called "incapacitated" person. You either failed to learn them or ignored those federal laws and rules. You also failed to learn or ignored the Pennsylvania Rules that governed the treatment and rights of those so-called "incapacitated" people: Mother. You also allowed the same quack psychologist, Iedakis, to be used and paid by Mother, even though he admitted in court, by my questioning, he had NO independent proof of accuracy for any of his tests and for his so-called "evaluations" of Mother. In other words, Iedakis was a unqualified person to be used or paid.

You also refused to protect Mother's estate assets (later my inheritance) by trying to find a much bigger, much cheaper and much nicer place for Mother to live, including living back at home and having basic care, such as for bathing. I had been living there for at least 2 years before the fake petition was granted. As you know, the cost of Mother's pig pen was about \$90,000 a year, compared to the court accepted cost of Mother living at home at only about \$16,500 a year. I could have done the cooking and house keeping as I had done with my own homes for about 30 years.

On August 25 2021 jsh and logie kidnapped Mother from her house, when there was no reason to do so, and there was never any court order to do so. Jaskowiak had refused to protect defend Mother in court from the fake petition of jsh and refused to demand Mother be sent home after she was kidnapped by jsh for 12 days. Mother was kept as a prisoner at jsh's home, drugged, denied to leave, denied to use the phone, denied to see me and starved. After about 12 days, Mother became unconscious, had to be taken to the hospital, by ambulance, treated for 6 weeks for starvation, daily blood tests (42 times and her arms were black and blue), daily needles in the stomach (42 times), she got covid where she could have died and then logie and jsh dumped Mother into that low rated pig pen that had just opened from a months long covid shut down. Mother got covid again and influenza where she could have died. Mother was kept in solitary confinement, in a sensory deprived environment, no phone, no visitors allowed of her friends, no ministers, no useable tv, old and broken furniture, stained bedsheets and towels, torn bedspreads, dead rodents, not allowed to visit her home and her much loved possessions, kept with people with mental and behavior problems, even though no one ever accused Mother of having such problems, no outside food allowed, even though Mother had no diet restrictions and no

food allergies. Mother was forced to live as a bag lady because she was forced to wear other people's clothes. After 3 years as a prisoner of the guardian mafia, including you and jsh, despite my many efforts, Mother still never got a table in her room.

But, you must be so happy that Mother had all of her money for you, jsh and the rest of the guardian mafia to steal, forced her to live like a rat in a cage for 3 years and then be killed off by the guardian mafia. Mother was forced to die a very slow, painful, barbaric and inhumane death of starvation and dehydration by morphine. Mother never got the dignity of hospice and never got any last wishes by the guardian mafia, mainly to die at home and be with me for as long as possible.

Maybe Mother would have wanted to get medical treatment, as opposed to what she put in her will 20 years ago. The last guardian of person, Ellis who was never certified as a guardian and never was a guardian, never told me Mother was dying until my last visit to see Mother for only one hour, only hours before she was to die.

How was that any type of guardianship? It never was. It was a ownership of a human being just for Mother's assets.

loan, ring, house, report, estate

Mr Fenstermacher,

I still have not heard from you for past about 7 months on any of the issues I have told you about that affect my inheritance in my many, many emails to you. You have refused to sell me the house as you said you would back in fall of 2024. No reason given by you. You have continued to force me to live in my car. You are wasting my inheritance by paying for the various expenses and taxes of the house without me getting any benefit of it. You have refused to answer my questions about the Will and trust

You have also refused to provide documents proving the \$100,000 loan to my sister, by my parents, was ever forgiven by my Mother as you have claimed. The 50% of that remaining loan of \$75,000 is my inheritance. You have refused to let me get a independent estimate on Mother's diamond engagement ring that you allowed my sister to have the funeral director take off of her dead Mother's finger, you allowed my sister to put Mother into a much cheaper casket than my Mother had picked out for herself years ago and my sister had Mother buried in a pajama top and sweatpants. She refused to let me put a note of love into Mother's casket and she refused to not allow me to take a picture of Mother for memory.

You have refused to accept your gross corruption as guardian of estate to Mother for the last 2 years of Mother's life. You admitted in court, by my questioning, you had not seen or talked to Mother for 4 years before her being killed by the guardian mafia. But, you were making decisions for her when Mother had the right to be asked and her wants and wishes granted, even being declared "incapacitated.". You allowed the massive waste of money as guardian of estate to Mother for 2 years by having Mother kept in her pig pen instead of Mother living at home at the court accepted cost of only \$16,500 a year compared to about \$90,000 a year she was paying at the pig pen. You refused to look into why Mother was even kidnapped from her house and later forced to exist in the pig pen in solitary confinement, in a locked in section, in a sensory deprived environment, not allowed into society and was forced to be kept with people with behavior and mental problems. Mother NEVER had any such problems and NO one, including judges, guardians or sister ever claimed Mother had those problems. The 50% of that money allowed to be wasted by you is my inheritance.

Plus, the massive lawyer fees that were the responsibility of the guardians as part of them doing a business and also the "care manager" Klock had no purpose to be hired and paid at all. As you recall in court, by my questioning, you stated you thought your only job was to sign checks and not care about waste and fraud. That waste and fraud involve Mother losing massive amounts of money and me losing massive amounts of money in my inheritance.

You have refused to tell me when your final report will be released and another matter involving the estate by a relative.

You are the Executor of the Will, you are required to carry out my Mother's wishes as she wanted and protect my inheritance. You have refused to do so.
